CONSTRUCTION MANAGEMENT & PROJECT CONTROLS

Women-Owned · WBE / SBE / DBE · Est. 2001

Expert-led project controls across infrastructure, energy, transportation, water, healthcare, and data center sectors.

01 PROJECT CONTROLS

Comprehensive scheduling, cost tracking, risk management, and performance analytics to keep projects on course.

02 PROJECT SCHEDULING

Advanced CPM scheduling with PSP-certified professionals and 20+ years of construction scheduling mastery.

03 COST CONTROLS

Real-time cost tracking, variance analysis, and budget forecasting to prevent overruns and optimize profitability.

04 CLAIMS MANAGEMENT

Complex dispute support, delay analysis, and change order documentation for contentious project resolution.

05 PROGRAM MANAGEMENT

Full-lifecycle management from planning through closeout, covering multiple projects simultaneously at scale.

06 STAFF AUGMENTATION

Flexible staffing solutions to scale teams during peak periods or add specialized expertise on demand.
